## Introduction

Issuance of the Jordanian National Bibliography is a Pioneer objective for the National Library in its aim to document and Protect all Intellectual Productions to be accessible to learners, researchers, librarians, and interested people and future generations.

Department of the National library plays an integral role in preserving these productions by Implementing Copyright Law No.22/1992 and its amendments. This is to ensure the safe and healthy environment for investment in Jordan.

I would like to emphasize on the importance of depositing all intellectual works in the National Library in accordance with Copyright Law and Regulation No.4/1994, to enable us to include them in future issues of the Bibliography, noting that the present issue only includes the deposited works for the year 2009.

I would like to seize this opportunity to extend my sincere thanks and appreciation to all the efforts spent in making this task possible.

Mamoun Tharwat Talhouni  
Director General
