Introduction

Department of the National Library is pleased to present this annual publication of the Jordanian National Bibliography. One of the main functions of the National Library is introducing the Jordanian intellectual and creative production published both inside and outside the Hashemite Kingdom of Jordan for Jordanian and non-Jordanian authors, and the books published by Jordanians inside and outside the Kingdom. This annual tradition of the Department aims at preserving Jordanian national memory through its preservation, maintenance, protection and transmission to future generations. This bibliography includes a collection of books deposited at the National Library Depository Center in 2016.

The development of the national bibliographic control depends primarily on the continuation of depositing works, and cooperation of authors and publishers in depositing their works as soon as they are published in accordance with Copyright and Related Rights Law No. 22 of 1992 and its amendments, and the Deposit of Works By-Law No. 4 of 1994 and its amendments, which bind authors and publishers to deposit three copies of their works published in the Kingdom and two copies of the works published outside Jordan. This deposit will help the issuance of the national bibliography in a timely manner, and thus enable scholars, researchers, interested people and educated elites in libraries and documentation centers to have access to published works for their benefit.

Collecting the Jordanian intellectual production in one place and documenting it through the publication of the Jordanian national bibliography is one of the main objectives and functions of Department of the National Library. The bibliography is considered as an exclusively documented record of national intellectual production in all its forms.

For this purpose, I invite all authors and publishers to deposit their intellectual production at Department of the National Library to keep it for future generations and to make it part of the national

cultural memory as the department represents the memory of Jordan and its mission is to preserve it.

I would also like to thank all the staff of Department of the National Library for their efforts in bringing this publication to light. May God help us to serve our beloved country under the presence of His Majesty King Abdullah II Ibn Al Hussein, may God support and protect.

Director General
Department of the National Library
Dr. Nidal Al-Ahmad Al-Ayasra
